

## HGHASSK-C150

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: THOBO
- Minimum Order Quantity: 50

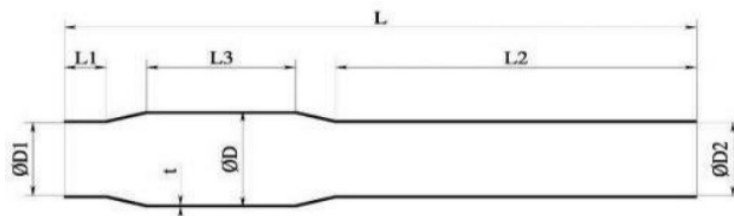

#### Product Specification

- Highlight: automobile shock absorber machine, HGHASSK-C150

## Product Description

This equipment is specialized equipment designed for expanding and contracting the liquid storage cylinder of the automobile shock absorber. This equipment changes the traditional single-head expansion or shrinkage mode and adopts upper and lower oil cylinders to work with the processing mold, which can process both single-head expansion and shrinkage products at once, improve the accuracy of the workpiece, reduce the production cycle, and reduce production costs. This equipment is powered by hydraulic pressure and utilizes a microcomputer to control various components to carry out required actions. The equipment is user-friendly.

S/N	Item	Parameter	Remarks
1	Reservoir diameter $\phi D$	$\phi 36 \sim \phi 100\text{mm}$	
2	Tank height L	200mm~550mm	
3	The retracted end of the liquid storage cylinder $\phi D1 \phi D2$	$\phi 33\text{mm} < \phi D1 \phi D2 < \phi 80\text{mm}$	
4	Lower end expansion and contraction length L1.	$\leq 60\text{mm}$
