

## HGDAYHJ-CCS 10KN Rated press force

### Our Product Introduction

#### Basic Information

- Place of Origin: CHINA
- Brand Name: THOBO
- Minimum Order Quantity: 50

#### Product Specification

- Highlight: 10kn shock absorbing machine,  
10kn shock absorbing equipment

## Product Description

This equipment is designed for automobile shock absorber assembly with small spring. The equipment is a vertical three-column structure, mainly composed of a frame, a positioning system, a press-fit system, and an electronic control system. The frame is made of steel and welded. The main components are installed on the body workbench, and servo motors are used to match the ball screw supply. The power is press-fitted. The electronic control system of this equipment adopts a touch screen controller to cooperate with a pressure sensor to detect the spring pressure and force value during assembly, and alarm the workpiece with the force value exceeding the difference. This equipment can be used for high-volume, high-quality continuous production without special training for operators.

S/N	Item	Parameter	Remarks
1	Workpiece assembly height L	220 ~650mm	Before pressing
2	Maximum outer diameter of workpiece D	$\leq \phi 150\text{mm}$	
3	Spring pitch P	$10\text{mm} \leq P \leq 50\text{mm}$	
4	Rated press force	10KN
