

HGYAHLL-C

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: THOBO
- Minimum Order Quantity: 50

Product Specification

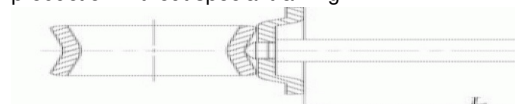

- Highlight: automobile shock absorber machine,
Shock Absorbing Equipment 100kgf/cm2

Product Description

This equipment is specialized for flow detection of the damper piston valve system.

This equipment is primarily made up of hydraulic systems, positioning sealing systems, flow detection systems, and electrical systems. The device is powered by an oil cylinder for positioning and sealing, and then the flow detection system conducts valve flow detection. The device uses the touch screen controller's setting to drive each component to complete the detection operation. The equipment is user-friendly and allows workers to complete production without special training.

S/N	Item	Parameter	Remarks
1	Piston outer diameter ϕD	$\phi 30 \sim \phi 70 \text{ mm}$	
2	Piston rod diameter ϕd	$\phi 20 \sim \phi 28 \text{ mm}$	
3	Distance from dust cover to sealing screw L	$\geq 45 \text{ mm}$	
4	Flow detection maximum pressure	100kgf/cm ²	
5	Traffic detection traffic	1.5~ 50 liters/min
